During April 2017, the production of coal and crude oil were **lower** than the target for the month **as well as** the performance during the corresponding month of the previous year. Production of fertilizers, natural gas, upgradation of highways by NHAI, goods traffic carried by railways and passengers handled at both (international & domestic) terminals of the airports were **lower** than the respective targets for the month but **higher** than the performance during the corresponding month of the previous year. However, the refinery production was **higher** than the targets but **lower** than the performance during the corresponding month of the last year. During the month, the production of finished steel, cargo handled at major ports and new (net) wireless phone connections were **higher** than the performance during the corresponding month of the previous year. However, cement production, coal handled at major ports were **lower** than the performance during the corresponding month of last year.

The sector-wise details are given in **Annexure - A**.
