SUMMARY

Performance during August 2015

During August 2015, up gradation of highways by state PWD and BRO was **lower** than the respective targets **as well as** the performance during the corresponding month of the previous year. During the month, the power generation, crude oil production, refinery production, up gradation of highways by NHAI, import and export cargo handled at airports and passengers handled at both terminals (domestic and international) of the airports were **higher** than the respective targets **as well as** the performance during the corresponding month of the previous year. The production of coal, fertilizers, natural gas, goods traffic carried by railways and cargo handled at major ports were **lower** than the target for the month but **higher** than the performance during August 2014. During the month, the cement production and net addition of switching capacity in telephone exchanges were **more** than the performance during the corresponding month of the previous year, but net (new) wireless phone connections were **lower**.

Performance during April – August 2015

2. During the period, the production of natural gas have shown **shortfall** from the respective targets as well as the performance during the corresponding period of the previous year. The power generation, production of crude oil and refinery, upgradation of highways by NHAI, export and import cargo handled at airports and passengers handled at domestic terminals of the airport were **higher** than the respective targets as well as the performance during the corresponding period of the previous year. The production of coal, fertilizer, goods traffic carried by railways, cargo handled at major ports and passengers handled at International terminals of the airports were **lower** than the respective targets but **higher** than the performance during the corresponding period of the previous year. However, upgradation of highways by state PWD and BRO was **higher** than the target for the period but **lower** than the achievement during corresponding period of previous year. During the period, the finished steel production, net addition of switching capacity in telephone exchanges and net (new) wireless phone connections were **lower** than the performance during the corresponding period of the previous year, but cement production were **higher**.
