The production of natural gas and goods traffic carried by railways were lower than the respective targets as well as the performance during the corresponding period of the previous year. During the period, production of fertilizers, upgradation of highways by NHAI and passengers handled at international terminals of the airport were lower than the respective targets but higher than the performance during the corresponding period of the previous year. The production of crude oil was higher than the respective targets but lower than the performance during the corresponding period of the previous year. During the period, the finished steel production, cement production and cargo handled at major ports were higher than the performance during the corresponding period of the previous year. However, the net addition of switching capacity in telephone exchanges and new cell phone connection were lower than the corresponding period of the previous year.
