During April – July 2016, the power generation, coal production, refinery production, export & import cargo handled at airports and passengers handled at both terminals (international & domestic) of the airport were **higher** than the respective targets **as well as** the performance during the corresponding period of the previous year. The production of crude oil, natural gas and goods traffic carried by railways were **lower** than the respective targets **as well as** the performance during the corresponding period of the previous year. During the period, production of fertilizers, upgradation of highways by NHAI, upgradation of highways by State PWD & BRO were **lower** than the respective targets but **higher** than the performance during the corresponding period of the previous year. During the period, production of finished steel, cement and cargo & coal handled at major ports were **higher** than the performance during the corresponding period of the previous year. However, the net addition of switching capacity in telephone exchanges and new cell phone (wireless) connection were **lower** than the corresponding period of the previous year.
